

TARIFF OF LEGACY QUALIFICATIONS (TLQ)

The Tariff establishes how legacy qualifications in Initial Teacher Tutor Trainer Education map to the new *Equipping our Teachers for the Future* requirements in England.

Legacy Qualification: Stage 2 NQF(old) Level 4 FE Teachers Certificate

LEVEL 4 CTLLS			
Unit Title	Preparing to Teach in the Lifelong Learning Sector (PTLLS)	Planning and Enabling Learning (P & E)	Principles and Practices Of Assessment. (PPA)
Credit Value	6	9	3
Coverage	Full	Full	Full

Key

Full – there is sufficient coverage of the learning outcomes and assessment criteria of this unit.

This does not mean that the requirements for teaching practice, and where relevant, assessed teaching observations have been met. Where these requirements have not been met this will be addressed by awarding institutions or other relevant bodies. CTLLS also requires completion of a 6 credit Optional Unit.

Part – there is insufficient coverage of the learning outcomes and assessment criteria of this unit. Awarding institutions may be prepared to accept additional evidence to ensure sufficiency of coverage.

None – there is minimal or no coverage of the learning outcomes and assessment criteria of this unit

The new *Equipping our Teachers for the Future* qualifications (PTLLS, CTLLS and DTLLS) contain elements that have been introduced over time and may not be covered in the legacy qualification e.g. introduction of the minimum core, emphasis on subject specialism, personalised learning. In these instances awarding institutions or other relevant bodies may require additionality in order to meet the full requirements of the qualification.

Legacy qualifications will only be mapped to an equivalent level in the new qualifications framework. e.g. NQF Level 4 FE Teachers Qualification will only be mapped to the same level qualifications in the new framework (PTLLS, CTLLS and DTLLS)

Legacy qualifications at Level 4 are based on the old National Qualifications Framework (NQF) levels. Level 4 in the new NQF has been broken down into three levels: Level 4,5 and 6. The new framework of qualifications is based on the new NQF.
